

# COVID-19 PPE and Exposure Guidelines as of March 19, 2020

Released: 3/18/2020 – Updated: 3/19/2020 9:04 AM

*The recommendations below for employees, physicians and residents follow the guidance of Centers for Disease Control & Prevention (CDC) and New York State Department of Health (NYSDOH).*

## **DO I NEED TO WEAR A MASK?**

1. Procedural masks (non-N95) should only be used when evaluating a COVID-19 patient or a Person Under Investigation (PUI).
2. **There is no need to wear masks routinely, especially when not in contact with patients.**
3. **MASKS ARE FOR PEOPLE WITH SYMPTOMS ONLY.**
4. N95 respirators should **only** be used when performing aerosol generating procedures such as bronchoscopy, endotracheal intubation/extubation, OPEN suctioning, bronchoscopy, and nebulizer therapy on patients with confirmed or suspected COVID-19.
5. You must have been previously fit-tested to know your proper size for the N95 respirator being used.
6. Supplies of masks and respirators are critically low, and we must preserve these for care of known COVID-19 cases or PUI.
7. Please do not bring respiratory protection equipment from home.

## **DO YOU HAVE THE FOLLOWING SYMPTOMS?**

- **FEVER**
- **COUGH**
- **SHORTNESS OF BREATH**

## **YES**

**Symptomatic:** If the Employee is symptomatic, then the Employee cannot work and should follow normal protocol for disability (DBL), working with Human Resources just as they would for other illnesses that prevent them from reporting for work.

Call the Coronavirus Hotline at 716-859-3222 for further direction (open daily 7 a.m.-7 p.m.).

If staff who are **asymptomatic** develop symptoms consistent with COVID-19, they should immediately stop work and isolate at home.

## **NO**

- The Employee will continue working, and
- Should self-monitor twice a day (i.e., temperature, symptoms) and
- Undergo temperature monitoring at the beginning of each shift and at least every 12 hours.

**\* THESE KALEIDA HEALTH UPDATES ARE SUBJECT TO CHANGE. THE CDC, NEW YORK STATE DEPARTMENT OF HEALTH AND ERIE COUNTY DEPARTMENT OF HEALTH REGULATIONS & GUIDELINES ARE CHANGING DAILY.**
